

Joint Task Force on Practice Parameters Conflict of Interest Policy 2020

In order to preserve the integrity of Allergy and Immunology Practice Parameter documents, the Joint Task Force on Practice Parameters (JTFPP) requires all individuals involved with the development of a practice parameter to complete a COI Form. Disclosure of potential COI should reflect all current commercial, non-commercial, intellectual, institutional, and patient/public activities.

Disclosure by **JTFPP Members** must be made in writing prior to the commencement of their service to the JTF and must be updated whenever circumstances require or once per calendar year, whichever is sooner.

Disclosure by a Parameter **Work Group Chair** candidate must be made in writing prior to forming the Parameter **Work Group** and must be updated whenever circumstances require or once per calendar year, whichever is sooner.

Disclosure by a Parameter **Work Group Member** candidate must be made in writing prior to forming the Parameter **Work Group** and must be updated whenever circumstances require or once per calendar year, whichever is sooner.

Examples of **potential conflicts of interest** that should be disclosed include, but are not limited to, remuneration received by the individual for any activities performed (such as grants, clinical trials, honoraria, legal or medical consulting fees, etc.), research funding sources, investments, gifts, and organizational affiliations. If the individual's employer fits the definition of a **commercial interest***, the individual should describe the scope of his or her work responsibilities (such as administration of specific programs or the topic of research activities). If the individual's employer receives remuneration from a commercial interest for the individual's activities, this relationship should also be disclosed. Non-financial COI should also be declared (office holder, published works, competing interests or academic commitments).

All information disclosed will be reviewed to identify potential conflicts of interest and to guide the resolution of those conflicts. Reviewing the disclosures of JTFPP members will be the responsibility of the sponsoring organization that nominated the JTFPP member (i.e. the ACAAI and the AAAAI). The JTFPP Co-Chairs will review and manage the disclosed COI of potential Work Group Chairs and Work Group Members, with possible assistance of the JTFPP.

Financial information obtained from this disclosure form is confidential and will only be used by the JTFPP and its sponsoring societies for the purpose of determining potential conflicts of interest.

Examples of **potential conflicts of interest** include:

1. Financial relationship with a commercial interest (e.g. received salary, income, gifts, or other assets for performing clinical trials, speaking, and consulting/advising)
2. Financial relationship with MedEd Company.
3. Financial relationship with any organization that provides commercial support to the ACAAI or the AAAAI.
4. Research funding sources (e.g. grants from NIH, Pharma-sponsored investigator initiated research, or other sources of research support).
5. Organizational affiliations, including both volunteer and paid positions held with organizations that may create or be perceived as a conflict of interest.

*A **commercial interest** is defined as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.
